Result					

Key Discussion Items					
Discussion					
Reviewed the X334 TRAC and the Public Review Period Process document. Based on the TRAC, the tentative public comment period begins on 10/15 and will end on 10/30 due to the limited scope of the review (BPR02 and 8300 loop).					
Decisions					
WG Familiarized themselves with the upcoming public comment process and reviewed the public comment spreadsheet template and how it should be organized.					
Discussion					
Sent the X12F liaison a notification to inform X12F that the draft TR3 is available for their review of the BPR02 and 8300 loop changes.					
The X12F liaison provided feedback from X12F about the BPR02 note verbiage pertaining to decimals which was discussed with the group, including TGB Management.					
Decisions					
The WG will enter the X12F feedback as public comments during the public comment period, so that the WG can address the X12F input to help clarify the BPR02 note. The WG determined this is a non-substantive change but should be addressed for clarity.					
Discussion					

WG reviewed the X334 7030 change log (from Only connect) and identified entries that should not be included.
Decisions
Discussed it with TGB Management. The WG was instructed to hold off on Change log updates at this time and to wait for further directions.
Discussion
WG discussed the BAR (Business Analysis Report) request from the TGB Management. WG located the 6020 version of the BAR.
Decisions
To use the previous 6020 version of the BAR as the starting point to develop the 7030 BAR. WG decided to continue this work during the interim meetings.
Discussion
WG reviewed the draft X345 (HIX) TR3.
Decisions
All changes have been applied. WG will make a motion in X12N to move the TR3 forward for publication pending TAS approval.
Discussion
WG reviewed draft 7030 transaction examples (CR1479).
Decisions
WG will continue to develop and revise the 7030 transaction examples.
