

X12N/TGA/WG2

Change Management

The Change Management work group (TGA|WG2) is a standing advisory work group operating under the Insurance subcommittee (X12N) of the Accredited Standards Committee (ASC). The work group's activities are coordinated by the TGA task group and overseen by the X12N officers. The task group adheres to all applicable corporate, committee, and subcommittee policies and procedures.

Purpose

The Change Management work group (WG2) functions as the project manager of the X12N change request process.

Scope

The Change Management work group's responsibilities are:

- Reviewing, evaluating and prioritizing X12N change requests
- Creating project plans as necessary to manage X12N change requests as they move through the X12N change request process
