

X12N/TGB

Business Task Group

The X12N Business task group (TGB) is a standing advisory task group operating under the Insurance subcommittee (X12N) of the Accredited Standards Committee (ASC). The task group's activities are overseen by the X12N officers. The task group adheres to all applicable corporate, committee, and subcommittee policies and procedures.

Scope

The X12N Business task group (TGB) coordinates the activities of the X12N workgroups with responsibilities related to the development of X12N business requirements to satisfy maintenance requests. The task group also coordinates communication among those work groups and between those work groups and the X12N Technical task group (TGC).

Responsibilities

The X12N Business task group's responsibilities are:

- Coordinating the development of business requirements supporting health care and property & casualty insurance activities including automotive subrogation, benefit information, billing and encounter information, enrollment information, entity information, invoice and premium payments, payments, property and casualty administration, provider information, and services review
- Coordinating with TGC to ensure business requirements are implemented accurately
- Coordinating with other subcommittees as needed via the appointed internal liaisons

Document History

Revisions are effective on the approval date, unless otherwise stated in the approval.

Date	Description
07/02/2019	Renamed to ASC90.B00 to support easier referencing; simplified and standardized the format.
09/15/2017	Renamed to ASC90.07.
