X12N/TGC/WG7
EDI Acknowledgments

The EDI Acknowledgments work group (TGC|WG7) is a standing advisory work group operating under the Insurance subcommittee (X12N) of the Accredited Standards Committee (ASC). The work group's activities are coordinated by the TGC task group and overseen by the X12N officers. The task group adheres to all applicable corporate, committee, and subcommittee policies and procedures.

Purpose

The EDI Acknowledgments work group develops technical reports to facilitate acknowledgment of X12N-defined transactions.

Scope

The EDI Acknowledgments work group's responsibilities are:
- Maintaining expertise related to the acknowledgment transactions defined in X12's EDI Standard including detailed knowledge of related design rules and syntax and semantic requirements
- Understanding X12N's needs related to the exchange of acknowledgments for X12N-defined transactions
- Developing and maintaining technical reports based on the Application Reporting (824) and Implementation Acknowledgment (999) transactions
- Collaborating and coordinating with other X12 subcommittees that develop or implement acknowledgment transactions including the Communications and Controls (X12C) and Finance (X12F) subcommittees and with the Technical Assessment (X12J) subcommittee
