X12 HIPAA RECOMMENDATIONS

→ X12 will soon issue a new recommendation to advance each of the currently mandated transactions to its counterpart 008060 version

→ The recommendation will include details about the improvements and new functionality

→ Once the recommendation is issued, X12 members and other implementers are strongly encouraged to submit letters of support for the recommendation

- *The Recommendations web page will have more information about where to send the letters*

→ Once an NPRM is issued, X12 members and other implementers should also post comments supporting the version advancements

X12 HIPAA RECOMMENDATIONS

→ Soon thereafter, X12 will issue another recommendation for mandating other standards that support health care industry needs above and beyond the currently mandated standards

→ That recommendation will be supported with details about the new functionality available in the proposed standards and the value of those standards to the health care industry

→ Once again, X12 members and other implementers are strongly encouraged to submit letters of support for these recommendations

X12 INITIATIVES

→ Suggestion Process

- *Establish a process for gathering additional perspectives and useful industry feedback at the beginning of the maintenance request activities*

- *Rolling out in 2026*

→ Interim Public Meetings

- *Establish a new type of interim meeting, open to member representatives and non-members*

- *Rolling out in 2026*

X12 INITIATIVES

→ MR Process Refinements

- *Update ASC02 and ASC95 to identify the responsibilities of X12's new MR project manager staff role*

- *Establish a streamlined process for small-scope maintenance requests*

- *Modify development group policies to increase efficiency and align with the representative subject matter expert model*

- *Establish a separate workflow applicable when a development group proposes to quash an MR*

X12 INITIATIVES

→ Education, Information, and Messaging

- *Establishes a new X12 group focused on providing valuable information to the right audiences at the right time*

- *Responsible for coordinating messaging for internal and external audiences including basic and detailed information posted in X12's Info Center or delivered directly to the public via webinars or presentations*

- *Renewed emphasis on ensuring crucial material related to X12's products, committee activities, and value to the industries served by X12's standards and implementation guides is available, consistent, and accurate*

X12 INITIATIVES

→ Complex MR Workflow

- *Establish a detailed process for handling complex maintenance requests*

- *Applies when a submitted MR appears too narrowly focused on a particular aspect of a larger industry activity or federal requirement*

- *Applies when a submitted MR's details require refinement before industry perspectives and feedback are solicited via the Suggestion process*

- *Applies when a significantly unique transaction set or implementation guide is requested*
