

ASC X12C COMMUNICATIONS AND CONTROLS SUBCOMMITTEE

Standing Meeting Minutes

January 25, 11 AM – 2 PM EST

Attendance—7 people, 6 constituents

1. Monday, January 25

1.1. Administration

1.1.1. The Wednesday, January 27th scheduled meeting was cancelled.

1.1.2. Version 008020 has been published in Glass.

1.1.3. Max-Gerd Retzlaff resigned from his TAS Rep role because he has joined a new company, which isn't an X12 member. The subcommittee unanimously thanked Max for his valuable contributions.

1.2. Pending Items

1.2.1. X12C is the “owner” of the 999 transaction. X12N has written a TR3 for using the 999 in health care. That TR3 is under public review into February. The X12C constituents should review it and comment as needed. The public review site is [X335 \(x12.org\)](#).

1.3. Active

1.3.1. [TR3 Change Request 1933](#). Mike Rawlins has recommended that we reject this request and the Chair agrees. X12C constituents should review it as well.

1.3.2. The subcommittee approved the Chair's recommendation that they create a [new MR](#) to change the C072 Composite Lop Identifier definition and to make changes to X12.6.

1.3.3. The subcommittee discussed how X12 can get the word out to the industries, particularly health care, about its changes and improvements. It was agreed that a consistent communication plan is needed, which should include regular articles on X12.org. Gary Beatty noted that the Steering Committee is working on this.

Meeting adjourned at 11:30 PM EST
