 - Request is unclear and pertains to multiple segments and transactions.
 - Should be submitted as an MR or broken up. X12 Staff will contact the submitter.
- Review/Discuss/Approve RFI's
 - No new X12M-specific RFI's currently.
 - **RFI 2565 – N402 and N406 Clarification** - Discussed; awaiting follow-up from X12J, as needed
 - “N402 is required only if city name (N401) is in the U.S. or Canada”
 - Note: This Comment was removed from later X12 versions of the N4 segment.
 - Is ‘N4*Austell**301687852*US*SP*GA’ correct?
 - The N4 statement was developed prior to international considerations and provides guidance for use in US and Canada locations.
 - Code SP is in the N405/DE 309 list, and DE 309 is used in a number of segments.
 - Since N402 specifically is the ‘State or Province Code’, to use N405 with code SP is neither preferred nor recommended for US and Canada
 - Use of the N406 with N405 code SP would not be appropriate for US and Canada addresses.
 - Motion to approve offered and seconded. X12M Approved June 27, 2022.
 - June 27 update: X12J will prepare a response; X12 Standard's Comments are not part of the standard.
