 - ✓ **MR41 X12M AIA 824 Implementation Guideline TR3 – **In Development****
 - 6/2022 – AIA guideline is in-process (004010X350) and will be presented to X12M by the next Standing Meeting.
 - TR3 should be available for X12M during Q4 2022 for review and approval. Planning for January 2023 X12 approval to publish.
 - 1/2023 – In for ballot with AIA
 - 6/ 2023 – Deferred until further notice. Waiting approval from AIA.
 - ✓ **MR85 X12M AIA 897 Implementation Guideline TR3 – **In Development****
 - 6/2023– AIA guideline is in-process (004010X366)

- ✓ **MR239 – 832 Price/Sales Catalog additions for nuts, dairy, fish, meat, poultry** **Impact Assessment**
- 6/2022 - Enhancements to support product information for additional food categories
 - Will review list of proposed loops, segment, data element and code additions
 - This will create a basis for a new MR (to be submitted) for 897 transaction enhancements once the 832 work is completed
 - 6/28/2022 – Group reviewed the submission and offered suggestions; To be continued in September
 - 9/2022 – Continue work on the business requirements
 - Group reviewed the worksheets for nuts, dairy, fish, meat and poultry
 - Several changes were recommended
 - As soon as the updated documents are available, they will be reviewed
 - 1/2023 – Review Impact Assessment
 - Reviewed the Impact Assessment output line-by-line provided by X12 and identified few minor changes for update

Next steps,

- The changes will be provided back to X12 to update the Impact Assessment document in early February 2023.
- Once received the updated Impact Assessment output from X12, an initial review will be conducted to confirm the updates
- A meeting will be scheduled with X12M Supply Chain in March 2023 to review the changes that are made based on the initial review. The Impact Assessment document will be posted on X12M Supply Chain workspace in iMeet prior to the meeting to allow the group to review and comp prepared with their questions.
- Provided no further changes or updates identified, the X12M Supply Chain participants will be asked to approve the MR
 - Once approved by X12M Supply Chain, the Impact Assessment will be posted on Glass- X12 Maintenance Request under MR 239 and will be visible to all X12 sub-committees for review and comments before going to X12J Technical Assessment to recommend to PRB for e-ballot tentatively in X12 Summer 2023 Standing June 2023.
- 3/2023 – X12M Approval of Impact Assessment
 - Conditionally approved reviewed changes.
 - Co-Chair to submit to X12 to create output for all Sub-Committees to review.
- 4/2023 – In X12J – Impact Assessment opened to all sub-Committees for review
- 6/2023 –X12J approved for ballot

- ✓ **MR404 – X12M – TS 897: Add Loops for Additional of Food Product** **NEW**
- 6/2023 - Enhancements to support product information for additional food categories (nuts, dairy, fish, meat and poultry)
 - Related MR 239- New loops, segments, data elements and codes are created for TS 832 Price Sales/Catalogue. This new MR for TS 897 Data Synchronization enhancements
 - Review business requirements of proposed loops, segment, data element
 - 6/5/2023 Presented the details of the changes. Three new loops in Table 2:
 - A loop to include Segments DAI-Dairy & non-dairy Alternative and CHI-Cheese Information,
 - A loop to include Segments FIS-Fish, Seafood, and MCZ-Marine Catch Zone,
 - A loop to include Segment MPI- Meat and Poultry InformationThe participants suggested that three new loops should be added before SLN loop after the NF1 loop in table 2.
Add new segments in table 2: NUT-Nuts Information, VIT- Manufacturer Mineral, Vitamin and Nutrient Declaration, TTI- Texture and Thickness Information and MPT Manufacturer Preparation Information.
Add a composite to MEA for Net Content Statement:

It was recommended that MEA should not be used for the Net Content Statement. Change to the MTX as there is all the requirements. ADD the new code XXX(NCS) Net Content Statement in DE 363 Note Relevance Code, Segment MTX01 with Extended Description: As displayed on the product packaging.

- 6/6 2023, group discussion with excel worksheet continued. Zubair created the impact assessment and will request X12 staff to confirm.
 - A motion was offered and approved. The motion passed.
 - Submit to X12 staff.
- 6/12/2023 – Reviewed with the group the Impact Assessment output provided by X12 staff
 - X12M Approved the Impact Assessment
 - A motion was offered and approved. The motion passed.
 - Submitted the Approved Impact Assessment to X12 to create an output and open to all subcommittees for review.

✓ **NDC code Request -GS1 US** **Approved**

- 3/2023 for those who were not able to attend the call, GS1 US advised that a new CMR 119-99 is submitted requesting to add a new code to data element 235:
Code Value: N7
Definition: National Drug Code in 6-4-2 Format
Extended Definition: Comprised of 6-digit manufacturer ID, 4-digit product ID, 2-digit trade package size.
Code Source 240
Reason: The FDA is faced with having to increase the length of the national drug code. It is currently 10 digits in length (11 if you use the HIPPA/CMS format). The agency is running out of the first segment of this 3-part number that houses what is call the labeler code which identifies the manufacturer of the drug or biologic. A new 6-4-2 NDC qualifier is needed in the x12 standards.
- 4/2023: Approved- see section 5 Review/Discuss Code Maintenance Request – Batch 119
